

## Cass County Family YMCA

The Mission of the Cass County Family YMCA is to put Christian Principles into practice through programs that build healthy spirit, mind, and body for all. We strive to provide facilities and programs that can benefit all members of the Cass County Community.

Members of the Y enjoy entire use of the building. Our facility features a swimming pool, gymnasium, indoor track, weight training and cardiovascular area, W.O.W and much more!! Also included in the membership, Members can work with our Wellness Staff that can help set specific goals for their workout needs and help motivate them through their wellness needs.
