

The virtual care you need

Onduo* is here to help you succeed with your type 2 diabetes care plan. If you are feeling stressed, overwhelmed, or unsure of how to move forward with your care, our virtual care can help.

Here's what you get with the Onduo app:

- Virtual care offerings **tailored to your specific needs**.
- A Care Team that includes **coaches and specialists** that you can talk to right in the app.
- Virtual visits with Onduo's **board-certified endocrinologists**, as needed.
- A **smart blood glucose meter (BGM)** and **unlimited test strips**, delivered right to your door. You may even be eligible for a continuous glucose monitoring (CGM) system—no fingersticks required.**

No more searching for a specialist who's taking new patients. No more commutes and waiting rooms. **It's virtual care at your convenience.**

With Onduo, you'll get the tools and expert support to live life without diabetes getting in the way.

Join today and see if our program is right for you.**
